It is the belief of the Board of Trustees of School District #61 that student achievement is higher when the instruction given in the classroom is reinforced by having the students complete additional work on their own time. It is also the belief of the Board of Trustees that homework assignments need to be coordinated by the teachers for those students in grades six through twelve (6-12).

The Board endorses the assignment of homework when the frequency, quantity, and type of homework is appropriate to the student's grade level and individual/group circumstances.
